

AI Code Review & Security Analysis Report

Language: Python

Analysis Summary

Severity	Count
Critical	1
High	6
Medium	1
Low	13
Total	21

Detailed Findings

Finding 1

Agent: Code Analysis Agent

Severity: HIGH

Issue: invalid-character-carriage-return

Line: 1

Description: Invalid unescaped character carriage-return, use "\r" instead.

Recommendation: Follow the Pylint suggestion to improve code quality.

Finding 2

Agent: Code Analysis Agent

Severity: HIGH

Issue: invalid-character-carriage-return

Line: 3

Description: Invalid unescaped character carriage-return, use "\r" instead.

Recommendation: Follow the Pylint suggestion to improve code quality.

Finding 3

Agent: Code Analysis Agent

Severity: HIGH

Issue: invalid-character-carriage-return

Line: 4

Description: Invalid unescaped character carriage-return, use "\r" instead.

Recommendation: Follow the Pylint suggestion to improve code quality.

Finding 4

Agent: Code Analysis Agent

Severity: HIGH

Issue: invalid-character-carriage-return

Line: 6

Description: Invalid unescaped character carriage-return, use "\r" instead.

Recommendation: Follow the Pylint suggestion to improve code quality.

Finding 5

Agent: Code Analysis Agent

Severity: HIGH

Issue: invalid-character-carriage-return

Line: 8

Description: Invalid unescaped character carriage-return, use "\r" instead.

Recommendation: Follow the Pylint suggestion to improve code quality.

Finding 6

Agent: Code Analysis Agent

Severity: HIGH

Issue: invalid-character-carriage-return

Line: 10

Description: Invalid unescaped character carriage-return, use "\r" instead.

Recommendation: Follow the Pylint suggestion to improve code quality.

Finding 7

Agent: Code Analysis Agent

Severity: LOW

Issue: missing-final-newline

Line: 1

Description: Final newline missing

Recommendation: Follow the Pylint suggestion to improve code quality.

Finding 8

Agent: Code Analysis Agent

Severity: LOW

Issue: missing-final-newline

Line: 2

Description: Final newline missing

Recommendation: Follow the Pylint suggestion to improve code quality.

Finding 9

Agent: Code Analysis Agent

Severity: LOW

Issue: missing-final-newline

Line: 3

Description: Final newline missing

Recommendation: Follow the Pylint suggestion to improve code quality.

Finding 10

Agent: Code Analysis Agent

Severity: LOW

Issue: missing-final-newline

Line: 4

Description: Final newline missing

Recommendation: Follow the Pylint suggestion to improve code quality.

Finding 11

Agent: Code Analysis Agent

Severity: LOW

Issue: missing-final-newline

Line: 5

Description: Final newline missing

Recommendation: Follow the Pylint suggestion to improve code quality.

Finding 12

Agent: Code Analysis Agent

Severity: LOW

Issue: missing-final-newline

Line: 6

Description: Final newline missing

Recommendation: Follow the Pylint suggestion to improve code quality.

Finding 13

Agent: Code Analysis Agent

Severity: LOW

Issue: missing-final-newline

Line: 7

Description: Final newline missing

Recommendation: Follow the Pylint suggestion to improve code quality.

Finding 14

Agent: Code Analysis Agent

Severity: LOW

Issue: missing-final-newline

Line: 8

Description: Final newline missing

Recommendation: Follow the Pylint suggestion to improve code quality.

Finding 15

Agent: Code Analysis Agent

Severity: LOW

Issue: missing-final-newline

Line: 9

Description: Final newline missing

Recommendation: Follow the Pylint suggestion to improve code quality.

Finding 16

Agent: Code Analysis Agent

Severity: LOW

Issue: missing-final-newline

Line: 10

Description: Final newline missing

Recommendation: Follow the Pylint suggestion to improve code quality.

Finding 17

Agent: Code Analysis Agent

Severity: LOW

Issue: missing-final-newline

Line: 11

Description: Final newline missing

Recommendation: Follow the Pylint suggestion to improve code quality.

Finding 18

Agent: Code Analysis Agent

Severity: LOW

Issue: missing-final-newline

Line: 12

Description: Final newline missing

Recommendation: Follow the Pylint suggestion to improve code quality.

Finding 19

Agent: Code Analysis Agent

Severity: LOW

Issue: missing-module-docstring

Line: 1

Description: Missing module docstring

Recommendation: Follow the Pylint suggestion to improve code quality.

Finding 20

Agent: Security Vulnerability Agent

Severity: MEDIUM

Issue: hardcoded_sql_expressions

Line: 15

Description: Possible SQL injection vector through string-based query construction.

Recommendation: No recommendation available

Finding 21

Agent: Security Vulnerability Agent

Severity: CRITICAL

Issue: SQL Injection

Line: 10

Description: Dynamic SQL query construction may allow SQL injection.

Recommendation: Use parameterized queries and prepared statements.
